Committee Reports:

Electric Gate: Codes were given out. The main gate has been open several weeks and still needs service.

A discussion occurred on how to fix the main gate. Leo Kennedy said the Running Deer Board is interested in sharing the expense for repair or new equipment. They requested SNRA pay up to \$5,000.00 and Running Deer would cover the rest. The actual gate belongs to Running Deer Ranch and the opening mechanism belongs to SNRA.

MOTION: Bill Barton moved that the SNRA contribute up to \$5,000 for a new operating system for the main gate as long as Running Deer pays for the rest of the cost. Leo Kennedy seconded it and the motion passed unanimously.

Membership: None

Budget and Maintenance: Leo indicated that this year's road work has been completed. We will wait until after the rainy season to determine what maintenance projects for 2020 will be done and when.

Fire Committee: Russ Johnson reported that we have the new signs and are waiting on approval from the Fire Safe Council to install them.

Old Business: None

New Business: John Hunter reported that Charlie Sibbach, from Tri-Counties, will be replacing Nick Koonce as the website manager.

EMERGENCY CALLING LIST

Nov., 2019v2

See reverse for Fire Safety Information

Instructions For Fire

In the event of fire inside Running Deer Gate, first **call 911**. Then call one person at the top of the list. If you can't reach either person, proceed to the lower levels, especially in the area closest to the fire, until you reach someone who will **call the rest of the list**. Or, you can do the calls. If you help to fight the fire please wear closed shoes and long pants. If you are hurt, firefighters must tend to you instead of the fire.

Station people at intersections to guide emergency crews; the fire crews who respond may not be local!

BEFORE THE FIRE SEASON

- Make Cal Fire aware of any gate codes and provide them with keys or combinations to gate locks.
 - Post your address in 6" high, reflective numbers. - Maintain 100' clearance of combustibles around buildings.
 - Keep your water tank full. - Mark your 2½" wharf-head fitting with blue reflectors and keep it clear for access.
 - Keep family medical information available (attached to your refrigerator door is best).
 - Have your "go box" ready. It should contain medications, cell phone charger, insurance policies, important account numbers and passwords, irreplaceable items like picture albums, etc. Better yet, use a safe deposit box. More info is on websites.
- Go to readyforwildfire.org for advice on "firesafe" landscaping, emergency preparation, and firesafe building design and maintenance.

IN CASE OF A FIRE

- **Call 911:** call people at the top of the Emergency Calling List (it's at www.lakencimientosouthshorearea.com.)
- Open the main RDR gate, Gage Irving (emergency exit) gate and other gates leading to the fire.
- Station people or post signs at intersections to help fire crews find the fire; responders may not be from local stations.
- If you are evacuating remember your "go box". Use Gage Irving Road out of Running Deer so firefighters can move equipment freely. Bring your gate key.
- If overtaken by fire stop in a clear area with windows up; stay in the vehicle as long as possible to save oxygen and protect yourself from heat.
- "Sheltering in place", staying in your home, may be best if your house is of firesafe construction and has 100' of clearance.

Priority #1 is safety. Protect or aid people first. Try to avoid being downwind or uphill from a fire. Evacuate if necessary.

Priority #2 is facilitating the entry of Cal Fire. Open gates; provide guidance at intersections; keep roads and fire access clear.

WHEN RESPONDING TO A FIRE

SAFETY FIRST!

- **Always wear** sturdy leather shoes, long cotton pants and shirt. Wear a heavy cotton jacket and leather gloves and bring a dry bandana to protect your face.
- **Bring drinking water.** **Bring tools** to fight the fire: McCloud, shovel, rake, hoe, etc.

Water Trailer locations are indicated on the Emergency Calling List. Conserve water: fight lighter fuels and work the perimeter. Keep fire away from heavier fuels. Don't soak the area; spray at the base of the flames.

When you arrive at the scene:

- **Leave plenty of room for fire equipment to get by. Treat all power lines as dangerous.**
- Park away from the fire, not in grass or brush or uphill from the fire. Park so that you can escape in your vehicle rapidly.
- Plan an escape route to a safe area (preferably downhill) and rethink your escape route frequently.
- Be aware: stop often to **look up, down and around**. Tree branches or power lines may fall. Winds may shift dangerously or the fire may flare up again or jump to a new area. Bad terrain or embers underfoot may endanger you. Communicate with other firefighters. **Pay attention to your own fatigue.**

When the fire department arrives, follow their orders. They are now in charge of the scene. Do as they tell you. Remember: Cal Fire's #1 priority is human safety. If you are hurt you will take firefighters away from the fire. If you are prepared and follow the guidelines set above, your chance of being injured is decreased and this will allow Cal Fire to do their job of fighting the fire.

Other websites that should be visited for more information: www.calfireslo.org, and www.fcslo.org have house safety, landscaping and fire prevention ideas.

Newsletter Items: Cindy McGee has been working hard to get as many members as possible to receive the Newsletter electronically, reducing the monthly expense of printing and postage. After some discussion, it was agreed to transition to only electronic delivery.

MOTION: Bill Barton moved that as of Jan. 2020, SNRA Newsletters will be sent through email and will be posted on the LakeNacimientoSouthShoreArea.com website. Ken Thomas seconded it and the motion passed unanimously.
